

Moving Day Step by Step

1. Start early: you should try to start early the day you've planned to shift. It will save enough time, as you will get less traffic in the morning.
2. You should properly study the directions to your house so that you don't get lost in the way using the right map or last updated satellite navigation system.
3. Have a good breakfast healthy breakfast plenty of proteins as moving house is a hard physical job it seems easy at first. And have plenty of water between 6 to 8 cups of water half day.
4. Do not drive throughout the way all by yourself if the way is too long. You can seek help from friends or relatives. Stop at least once every two or three hours to avoid exhaustion.
5. Pick up: A rental van can be hired in order to pick up the entire belonging that needs to be relocated into the new house. It will be safer as well as convenient to hiring them a week before as it would avoid last minute confusion. The rental van or lorry employees would familiarize you with the vehicle and help you put the luggage in the truck..
6. Loading and unloading the belonging: Loading and unloading the truck would require you to take some precautions. It is advisable lift boxes with the help of legs and not your back so you should bend your knees. Make use of tapes to strengthen bottom of the boxes to avoid any kind of damage. The heaviest item should always be put first in the truck. But do not over exert yourself.
7. Try to order and use the right tools, try to order van with tail lift, trolley, use back belt and use gloves.
8. Have a many break as you need: especially in loading and unloading, don't rush worry about the hours of the van rented, drink plenty of water have snacks and more especially when you are about to carry heavy furniture or appliances.
9. Spend to save: You should spend some money to save you from a severe backache. You can hire a van with a tail- lift to lift the heavier furniture items. This would also help saving time and energy.
10. Necessary services: removal company London advice All the necessary things like mineral water, snacks, tea and coffee fixings, a kettle, roll of toilet paper, tissue paper and the like should be put together.
11. Check before leaving: You should always try to check all the rooms and storage areas before leaving the house so that nothing is left behind.
12. Turn off all the lights and utilities services gas water: Do not forget to turn off all the lights and lock the doors of all the rooms and all utilities.
13. In case you have sold your old house to the real estate agent or a new owner, you would need to give the keys to the respective owner of the house when you finish moving home.
